Linkedin: <https://www.linkedin.com/in/anusha-lekkala-1167062b4/>

Hackerrank: <https://www.hackerrank.com/profile/anushalekkala071>

Address: Gajuwaka, Visakhapatnam

CAREER OBJECTIVE:

To obtain a position as a Web and Software Developer where I can enhance my skills, gain practical experience, and contribute effectively to organizational growth

EDUCATIONAL QUALIFICTIONS:

SNO.	Course	Institute	Board/University	Passing Year	Percentage
1.	B.tech (AI-ML)	Dadi Institute of Engineering & Technology	JNTU/GV	Pursuing 4th year	77% (CGPA:8.46)
2.	10+2	Kendriya Vidyalaya No-2,NSB	CBSE	2023	75%
3.	10th	Kendriya Vidyalaya No-2, NSB	CBSE	2021	86%

TECHNICAL SKILLS:

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS

Database: RDBMS, SQL

Additional Tools: MS Office, Excel

Operating Systems: Windows, Linux

ACHIEVEMENTS:

Achieved NPTEL elite certificate in The Joy Of Computing Using Python

Google Student Ambassador 2026: GID: 8583

CERTIFICATES:

1. The Joy Of Computing Using Python Elite By NPTEL (Jan 2026)
2. Palo Alto CyberSecurity – EduSkills (Jan–Mar 2026)
3. Ethical hacking - Eduskills (Oct - Dec 2025)
4. Google Android Developer – EduSkills (July –Sep 2025)
5. Career Essentials in Generative AI by Microsoft & LinkedIn (May 2025)
6. AWS Data Engineering – Eduskills (April -June 2025)
7. Celonis Business Analyst – EduSkills (Jan –March 2025)
8. AWS Cloud – EduSkills (Oct–Dec 2024)
9. Google AI-ML TECH CAMP –EduSkills (Dec –2024)
10. Career Essential in CyberSecurity with Microsoft and LinkedIn (July 2024)

PROJECTS:

1. Iris Flower Classification: *(March 2026)*

Developed a KNN-based ML model with preprocessing and EDA, achieving 98% accuracy on the Iris dataset.

2. Community Service Project: *(July–Sep 2025)*

Built a web application to promote modern agricultural practices among rural communities by integrating traditional knowledge.

3 . Robotic Arm Controlled by Android App: *(July–Sep 2025)*

Created a web application to simulate and control a virtual robotic arm using Android commands with HTML, CSS, and JavaScript using Codepen.

4. Virutal Event Planning and Youth Innovation: *(Dec - March 2025)*

Developed a virtual platform for students and unemployed individuals to collaborate, design, and showcase event planning skills.

INTERNSHIPS:

1. Cohort 15 – EduSkills – Palo Alto Cybersecurity (Jan–Mar 2026)
2. Cohort 14 – EduSkills – Ethical hacking (Oct–Dec 2025)
3. Cohort 13 – EduSkills – Google Android Developer (July –Sep 2025)
4. Cohort 12 – EduSkills – AWS Data Engineering (April –June 2025)
5. Cohort 11 – EduSkills – Celonis Business Analyst (Jan –March 2025)
6. Cohort 10 – EduSkills – AWS Cloud (Oct–Dec 2024)

CO-CURRICULAR ACTIVITIES:

1. Attended AWS cloud workshop
2. Attended Google AI-ML Techcamp by Eduskills
3. Participated in IEEE Xtrememe Hackaton
4. Participated in IC-PINNACLE conference

PROFESSIONAL BODY MEMBERSHIP:

IEEE reporting team member in student branch
Membership ID: 101168100

PERSONAL INFORMATION:

DOB: 23-September-2005

Father's Name: L. Mutyalanaidu

Mother's Name: L. Ramu

Nationality: Indian

DECLARATION: I hereby declare that the information presented above is true and real.

Date: 8 June 2026

ALLU VARSHINI

8317581488 | varshie27@gmail.com | linkedin.com/in/varshiniallu3

PROFILE SUMMARY

Computer Science Engineering student (CGPA 8.91) with hands-on experience building IoT systems, web applications, and automation tools. Proven ability to independently design and ship real-world projects. Passionate about smart technology, full-stack development, and solving practical problems — eager to contribute as a fast-learning builder in a startup environment.

EDUCATION

BTech in Computer Science Engineering — Dadi Institute of Engineering and Technology

CGPA: 8.91 | Expected Graduation: 2027

Intermediate (MPC) — Sri Pragathi Junior College | 87%

SSC — ZPHS, Narsipatnam | 99%

TECHNICAL SKILLS

Languages: Java , Python (beginner), HTML5/CSS3 (hands-on project experience)

Frameworks & Tools: Arduino IDE, GitHub, VS Code

Core Concepts: Data Structures & Algorithms (Basic), OOP, IoT Systems, Web Development

Platforms: Windows, GitHub (version control)

PROJECTS

Smart IoT-Based Door Security & Remote Monitoring System | Arduino Uno WiFi R4

- Built a smart home security system with automated door control, environmental monitoring, and remote access via Wi-Fi — targeting an affordable alternative to commercial smart security products.
- Handled end-to-end development: hardware circuit design, firmware programming on Arduino IDE, and system integration testing.

Automatic Street Light Control System | LDR + Arduino

- Designed an LDR-based system that automatically toggles street lights based on ambient light intensity, reducing manual intervention and improving energy efficiency.
- Delivered complete circuit schematics, implementation, and technical documentation for the project.

Java Learning Roadmap Website | HTML5, CSS3

- Built a structured, beginner-friendly website that guides learners from core Java basics through OOP, DSA, and practice resources — addressing a real gap in organized learning materials.
- Designed the full UI and content architecture independently using HTML and CSS.

INTERNSHIPS

Google AI-ML Virtual Internship — Cohort 11 | 2024

- Completed structured AI/ML learning modules covering supervised learning, neural networks, and model evaluation using Google tools and platforms.

Java Full Stack Developer Virtual Internship — Cohort 12 | 2024

- Gained hands-on exposure to full-stack Java development concepts including backend logic, OOP design, and front-end integration fundamentals.

LEADERSHIP & ACTIVITIES

Secretary, DIET ACM Student Chapter | 2024–2025

- Led chapter operations, coordinated technical events and workshops, and managed member communications for the ACM chapter at Dadi Institute.

Google Campus Ambassador Program — Selected Participant

SPARK Program — Selected Participant (leadership & professional development program)

Active Member- Vizag Volunteers Club

CERTIFICATIONS

- Cambridge Linguaskills — B2 Level (English Proficiency)
- Oracle Java Foundations — LinkedIn Learning
- The Joy of Computing using Python — NPTEL
- Basics of C Programming — NASBA

SOFT SKILLS & LANGUAGES

Soft Skills: Quick Learner | Analytical Thinking | Team Collaboration | Time Management | Adaptability

Languages: Telugu | English (Professional Working Proficiency — B2 Certified) | Hindi

PROFESSIONAL SUMMARY

Final-year ECE student with hands-on experience in **RTL Design, FPGA Development, Verilog HDL, Digital Design, Functional Verification**, and Embedded Systems. Completed an internship in **RTL Coding & FPGA Design** and a 6-month industrial training in Electronic Device Testing. Developed multiple projects in **VLSI Design, FSM Design, Testbench Simulation**, and Arduino-based robotics. Hackathon Finalist and Engineering Content Creator with **18,000+ followers**.

TECHNICAL SKILLS

Hardware / HDL: Verilog HDL, RTL Design, FPGA Development, Digital Logic Design, FSM Design, Combinational & Sequential Logic, ASIC Concepts, VLSI Design, Functional Verification, Testbench Development

Programming: C, Python (Basic), JavaScript

Tools: Vivado (Basic), Git, GitHub, VS Code

Core Subjects: Digital Electronics, Analog Electronics, Microprocessors & Microcontrollers, VLSI Fundamentals, Communication Systems, Embedded Systems

EDUCATION

B.Tech – Electronics and Communication Engineering — Dadi Institute of Engineering and Technology

CGPA: 8.09 / 10 (76.86%) | Expected 2027

Diploma – Electronics and Communication Engineering — SMT. B. Seetha Polytechnic, Bhimavaram

78.56%

SSC – ZPPHS Mori

GPA: 9.8 / 10

INTERNSHIP

RTL Coding and FPGA Design Intern — Sri Shasha Prayathi Technologies Pvt. Ltd. | Dec 2025 – Feb 2026

- Designed and simulated combinational and sequential digital circuits using **Verilog HDL** targeting FPGA implementation.
- Developed RTL modules per design methodologies; performed **functional verification**, testbench development, and debugging.
- Gained end-to-end exposure to **FPGA design flow**: synthesis, implementation, and timing analysis using Vivado.

INDUSTRIAL TRAINING

Electronic Devices Testing Trainee — Skyquad Electronics & Appliances Pvt. Ltd., Hyderabad | 6 Months

- Executed electronic device testing and quality verification; applied fault identification and hardware troubleshooting techniques.

PROJECTS

Processor Thermal Controller | Verilog HDL

- Designed FSM-based thermal management controller with temperature monitoring; verified RTL functionality through testbench simulation.

Phone Charger IC Design | Verilog HDL

- Developed RTL logic for charger control and protection mechanisms; created and validated testbench simulations for functional coverage.

Theft Detection System | Verilog HDL

- Implemented digital event-monitoring and alert-generation logic; verified complete system behavior via simulation.

Speech Accelerator | Verilog HDL

- Developed hardware acceleration modules for speech-processing applications using parallel RTL architecture.

Automatic Smart Cleaning Robot | Arduino / Embedded Systems

- Built autonomous floor-cleaning robot using Arduino Uno, IR sensors, DC geared motors, and motor drivers; implemented obstacle detection and navigation logic.

Smart Investor | Hackathon Finalist

- Developed a financial decision-support platform in a competitive hackathon; advanced to the Final Round.

ACHIEVEMENTS & LEADERSHIP

- Hackathon Finalist – Smart Investor project; advanced to Final Round in a competitive multi-team event.
- Engineering Content Creator with **18,000+ followers**; produced content on VLSI, FPGA, Embedded Systems, and ECE career guidance.
- Completed RTL Coding & FPGA Design Internship (3 months) and 6-month Industrial Training in Electronic Device Testing.
- Active GitHub portfolio (github.com/narasimha-01) showcasing RTL Design, FPGA, and Embedded Systems projects.

kesavialla@gmail.com|<https://www.linkedin.com/in/alla-kesavi-a75862341>|<https://github.com/kesavialla-droid>

Profile Summary

Dedicated engineering student with foundational knowledge in digital electronics, logic circuits, and Verilog HDL. Interested in hardware design and verification, with a strong desire to apply theoretical concepts to practical implementations and industry projects.

Technical Skills

- **Programming Languages:** Python (Advanced), Java,VLSI(Basics).
 - **Software &Tools:**Pandas,NumPy,xilinx design,tinkercad,Multisim.
 - **Embedded System:** Arduino,Sensors.
 - **Core Concepts:** Digital &Analog circuits,Communication System.
-

Projects

FIRE FIGHTING ROBOT

- **ROLE:**Dumping code from software to hardware,ppt preparation(Academic project)
 - Designed and developed an autonomous fire-fighting robot capable of detecting and extinguishing small fires.
 - Integrated flame sensors, temperature sensors,DC motors, and a water pump controlled using an Arduino microcontroller.
 - **Output:**Automatic detection and extinguishing of fire using sensor-based robotic control.
-

Education

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering:

Dadi institute of engineering and technology,anakapalli

Year of Completion: pursuing

CGPA / Percentage:8.0 as of now

Diploma :

Rajiv gandhi recs polytechnic,kasimkota

Year of Completion: 2024

Percentage: 83.3

Secondary School Certificate:

Gvmc high school, Gandhinagar

Year of Completion:2021

Percentage: 86.5

Internship Experience (Optional)

Intern – MSME Technology Centre

PLC, Arduino, Hydraulics & Pneumatics

- Completed hands-on internship in PLC programming, Arduino microcontrollers, and industrial automation.
- Gained practical exposure to hydraulic and pneumatic systems, including valves, actuators, compressors, and cylinders.
- Worked on PLC ladder logic for controlling pneumatic and hydraulic operations.
- Developed Arduino-based control applications for sensor interfacing and automation tasks.
- Learned basics of industrial safety, troubleshooting, and system integration

Achievements & Certifications

Certification: Internship Certification – MSME Technology Centre (IndustrialAutomation)

- **Achievement:** Completed MSME training in PLC, Arduino, Hydraulics & Pneumatics with hands-on experience.
- Awarded NCC 'A' Certificate, demonstrating discipline, leadership, teamwork, and commitment

Languages: English, Telugu, Hindi (Optional)
